INFORMED CONSENT TO CHIROPRACTIC TREATMENT

The nature of Chiropractic Treatment – The doctor will use his/her hands or a mechanical device in order to move your joints. You may feel a "click" or "pop", such as the noise when a knuckle is "cracked", and you may feel movement of the joint. Various ancillary procedures, such as hot or cold packs, electric muscle stimulation, therapeutic ultrasound or dry hydrotherapy may also be used.

Possible Risks – As with any health care procedure, complications are possible following a chiropractic manipulation. Complications could include fractures of bone, muscular strain, ligamentous sprain, dislocations of joints, or injury to intervertebral discs, nerves or spinal cord. Cerebrovascular injury or soreness could occur upon severe injury to arteries of the neck. A minority of patients may notice stiffness or soreness after the first few days of treatment. The ancillary procedures could produce skin irritation, burns or minor complications.

Probability of Risks Occurring – The risks of complications due to chiropractic treatment have been described as "rare", about as often as complications are seen from the taking of a single aspirin tablet. The risk of cerebrovascular injury or stroke, has been estimated at one in one million to one in twenty million, and can be even further reduced by screening procedures. The probability of adverse reaction due to ancillary procedures is also considered "rare".

Other treatment options which could be considered may include the following:

- *Over-the-counter analgesics*. The risks of these medications include irritation to stomach, liver and kidneys, and other side effects in a significant number of cases.
- *Medical care*, typically anti-inflammatory drugs, tranquilizers, and analgesics. Risks of these drugs include a multitude of undesirable side effects and patient dependence in a significant number of cases.
- *Hospitalization* in conjunction with medical care adds risk of exposure to virulent communicable disease in a significant number of cases.
- *Surgery* in conjunction with medical care adds the risk of adverse reaction to anesthesia, as well as an extended convalescent period in a significant number of cases.

Risks of Remaining Untreated – Delay of treatment allows formation of adhesions, scar tissue and other degenerative changes. These changes can further reduce skeletal mobility, and induce chronic pain cycles. It is quite probable that delay of treatment will complicate the condition and make future rehabilitation more difficult.

I have read, or have had read to me, the explanation above of chiropractic treatment. I have had the opportunity to have any questions answered to my satisfaction. I have fully evaluated the risks and benefits of undergoing treatment. I have freely decided to undergo the recommended treatment, and hereby give my full consent to treatment. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition for which I seek treatment.

I do not expect the doctor to anticipate and explain all risks and complications. I wish to rely on the doctor to exercise judgment during the course of the procedure, which the doctor feels at the time, based upon the facts then known, is in my best interests.

OFFICE FINANCIAL POLICY

Our Mission at **ABSOLUTE HEALTH CHIROPRACTIC** is to provide you the best chiropractic care possible in a caring environment and to improve your relationship with your innate healer. We have established our financial policies to reflect that goal. You will be expected to pay for our chiropractic care at the time services are rendered unless other arrangements are made in advance. Other arrangements include yearly, monthly or weekly payment options. Details of these options will be discussed with you when the doctor goes over our recommendations to get your spine and nervous system as healthy as possible.

Cancellation of your appointment without 24 hours notice will result in a $35 cancellation fee.

HEALTH INSURANCE

ABSOLUTE HEALTH CHIROPRACTIC (AHC) accepts most major Medical Insurance, Medicare and Personal Injury.

- **Major Medical** – **AHC** accepts most major medical insurance. As a courtesy to you, we DO file your insurance. You are responsible for your deductible, any co-pay, and anything your insurance does not pay. After ninety (90) days, if your insurance hasn't responded, we reserve the right to collect the balance from you, the patient.

- **Medicare** – **AHC** is a participating Medicare provider, meaning we will submit all Medicare claims for your convenience. Medicare covers chiropractic adjustments only. All other therapies will be the patient's responsibility.

Due to the increasing difficulty of reimbursement from insurance companies, we will file as a **COURTESY** for our patients, but expect full payments of services rendered at time of service.

Any reimbursements that we receive from filing will be applied directly to your account or you may request a "speed bill" and file directly with your insurance company. If you should choose to file directly, please notify your insurance company to have all reimbursements made out to you and sent to your address.

Our commitment is to <u>your health</u>, not your insurance coverage. Your treatment plan is based on your individual needs not your coverage. Please remember, your agreement with the insurance company is between you and them, not us and them.
